## Architect / Project Manager

### LOCATION

Toronto, Ontario, Canada

Moriyama & Teshima Architects (MTA) is a team of architects, planners and designers collaborating with clients to build inspiring and enduring spaces that transform communities and reinforce civic identity. The office offers services in architecture, master planning and urban design, interior design and program development. MTA's extensive portfolio of Canadian and international projects covers museums and art galleries, university buildings, schools, corporate and government headquarters, recreational facilities, libraries, restoration and renovation projects, and urban/campus planning. With a long-standing core of design traditions that continue to define the practice, our studio is made up of individuals who reflect the cultural diversity that defines our global present: a combination of industry leaders and young designers working together to design and deliver exceptional projects.

Our headquarters are in Toronto, with a second office in Ottawa.

While our work is primarily focused in Canada, we also complete significant projects internationally, particularly in the Middle East.

We are currently seeking a design oriented Project Architect/Project Manager with 10+ years of experience to contribute as a vital team member, assisting with all phases of our varied projects. The lead design professional for the project, the successful hire will act as principle administrator and communications link between the firm and the client, general contractor, consultants, and public authorities.

### QUALIFICATIONS INCLUDE:

- M.Arch degree and licensed architect with OAA
- 10+ years of relevant experience as designer and project architect, with significant project management experience. Background in institutional work is preferred.
- Ability to lead project team to effectively meet deadlines and ensure that team is productive in all phases
- Strong proficiency in Revit is a must, as well as other pertinent software including Sketchup, Photoshop, MS Office
- Background in generating and translating concepts into final solutions, in directing a project design team, and in materials and methods of construction
- Comprehension of and compliance with QA/QC standards
- Competent knowledge of building materials, specifications and construction techniques
- Experience in dealing with governmental agencies, building codes, and zoning ordinances
- Ability to communicate effectively with coworkers, clients, consultants, and contractors
- Knowledge of professional ethics applying to the practice of architecture

To apply for this role, please email your cover letter, resume, and a link to your portfolio to [employment@mtarch.com](mailto:employment@mtarch.com) with "Architect / Project Manager" in the subject line
